

EU Type Examination Certificate

Date: 2019/10/25

n. **584194302/OE**

Validity:
2024/10/24

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)	KTM AG Stallhofnerstraße 3, 5230 Mattighofen - AUSTRIA	
Type of PPE:	Motorcyclist's protective clothing – trousers	
Category of PPE:	II : "medium" risks. This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.	
Model	"APEX II PANTS" col. BLACK	
Description:	<p><u>external side:</u></p> <ul style="list-style-type: none"> - black fabric declared 91% Nylon 9% Polyurethane "#4707 C2L, C6 DWR"; - black stretch knitting "#Lami 1930 PU2 coated and C6 DWR"; - black fabric declared 100% Nylon "#4121 C2L, C6 DWR"; <p><u>internal side:</u></p> <ul style="list-style-type: none"> - black felt "180G ALOVA AGAINST PEELING"; - black fabric "#1206 330D TASLAN"; - black perforated fabric declared 100% Polyester "POLY 11:1 MESH"; - black fabric "210T TAFFETA PU 4000MM"; <p><u>removable lining:</u> black fabric declared 100% Polyester "210T TAFFETA P/D";</p> <p><u>main fastening:</u> by means of a plastic zipper with metallic slider, internally there is a metallic button (BO-002) in direct contact with the user;</p> <p><u>leg and ankle closure:</u> by means of a plastic zipper with metallic slider;</p> <p><u>external pockets:</u> black fabric "210T TAFFETA PU 4000MM";</p> <p><u>hip and knee protectors' pocket:</u> black perforated fabric declared 100% Polyester "POLY 11:1 MESH";</p> <p><u>vents:</u> black mesh "P2M 320 MESH".</p> <p>CE Certified protectors (according to EN 1621-1:2012) to be inserted into the garment (all by SAS-TEC):</p> <p><u>shoulder protector:</u> art. "SCL-1";</p> <p><u>hip protector:</u> art. "SC-1/77".</p>	
Technical Standard:	EN ISO 13688:2013 FprEN 17092-3 (version 2019/03)	Protective clothing – general requirements Protective garments for motorcycle riders – Part 3: Class AA garments – Requirements
Intended use:	Motorcycling: preventive use – correct fitting and positioning of the inner protections are essential	
Size range:	Men's sizes: from S to XXL (full indications on the Information Notice)	
Technical File:	DC-11024	
Test report:	RCT n° 3821916/E	

EU Type Examination Certificate

Date: 2019/10/25

n. **584194302/OE**

Validity:
2024/10/24

Functions and performance levels:

The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities: CE-Certified incorporated impact protectors provide strengthened protection.

This PPE item has reached the following performance:

Class AA (*) = Medium-duty protective garments: the second highest level of protection, against the risks of the greatest diversity of riding activities. These garments are expected to have lower ergonomic and weight penalties than AAA garments, which some riders will not find acceptable for their specific riding activities.

Protective function is linked to the correct fit of the garment - also the inner impact protectors must be kept in their place: this falls within the responsibility of the user.

(*) = The applied Technical Draft document currently provides different levels of protection for garments including protectors/shells: from class AAA (highest level of performance) to class AA (medium level) to class A (lower level);

- class B for garments not including protectors / shells = just abrasion protection;
- class C for impact protector ensemble garments.

Marking:

printed on stitched labels and displaying the following information:

- **CE Marking;**
- name/trademark and web contact of the Manufacturer;
- item designation (article code);
- pictogram to indicate the intended use (motorcycling) + class of protection achieved + reference to the Technical Draft;
- pictogram instructing to read the User Manual;
- on extra labels: size indication, material composition, care/washing symbols and instructions;
- additional info: nr. of the Notified Body, "Made in...", warnings, internal codes.

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements.

The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
